WE have seen not less than 263 feet of sea-grass rope, in sections varying from one to six inches each, which we were assured were parts of the identieal rope with which Captain Jack and his Modoc braves were hung. The question arises-how long a rope was equired to hang an Indian murderer.

IT is proposed by the Colorado Legislature to tax church property, when the same is worth over \$7,000. We believe the idea is a good one. Why should wealthy churches, worth from \$10,000 to \$300,000 each, go free of taxation, while the humble cottager with his little home, is taxed to sup-
